New York, Dec. 4.—New York had its first real touch of winter last night when the mercury dropped from 40 degrees to 18 degrees in six hours. High freezing winds were responsible for this unusual drop of 22 degrees in so short a time. The wind played pranks with hats, electric lights and signs and set pedestrians scurrying through the streets at a lively gait to escape its bite.

### LEAVES SEABOARD ON DECEMBER 15TH.

By Associated Press.  
Norfolk, Va., Dec. 4.—The resignation of E. F. Cost as second vice president and traffic manager of the Seaboard Air Line Railroad becomes effective December 15th. His successor will not be chosen until the next meeting of the directors in New York in the latter part of December. Mr. Cost leaves the Seaboard to become vice president in charge of the Kansas City Southern Railway.

### TROUBLE IS EXPECTED

### Claim That Packers are to Blame Does Not Pacify the Women.

By Associated Press.  
New York, Dec. 4.—The Hebrew housewives of Harlem at a mass meeting held last night completed their organization and all their preparations to boycott the butchers' shops in Harlem that maintain the present raised scale of prices for kosher meat.

A representative of the Butchers' Protective Association made a speech to the 500 women, men, and children, in which he told them that the high prices were all due to the packers and entreated them not to force the butchers out of business. So disorderly did the meeting become during his speech that a spectator sent a call for the police. When order had been restored resolutions were adopted recommending a strict boycott of the Harlem butchers. The police expect trouble and will watch the meat shops closely today.

By Associated Press.  
Washington, Dec. 4.—President Roosevelt's annual message to congress occupied the attention of the senate as soon as the opening preliminaries were concluded today. These included the receipts of messages from the house, reciting deaths of several of its members.

Senators Very Attentive.  
The committee appointed to notify the president that congress was in session made its report through Senator Hale of Maine. The reading of the message began at 12:11 o'clock. Many senators were in their seats and the message received careful attention.

Baron Rosen the Russian ambassador accompanied by two members of his staff occupied the diplomatic gallery during the reading of the message.

Roosevelt Also Eager.  
President Roosevelt made it apparent to his senatorial callers today that he is anxious for speedy action on a congressional resolution calling for information regarding the discharge of negro soldiers of the 24th infantry for participating in the riot at Brownsville. As soon as a resolution is passed, he told them, he will send the information to the senate. The president further stated that either the Penrose or the Foraker resolution introduced in the senate yesterday would be acceptable to him.

Takes Hitt's Place.  
Speaker Cannon today announced the promotion of Representative Robert G. Cousins to the chairmanship of the house committee on foreign affairs made vacant by the death of Representative Robert R. Hitt, of Illinois. Representative Frank O. Lowden, of Illinois has been appointed to the committee on foreign affairs to fill the vacancy caused by Mr. Hitt's death.

### MAY NOW USE OIL.

By Associated Press.  
Columbus, Dec. 4.—The law of last winter authorizing municipalities to sprinkle roads with oil is valid and those municipalities that wish to do so may now proceed. The decision is given in the case of Louis Eyrn, a taxpayer of Norwood, a city of Hamilton county vs. the City of Norwood. The decision of the court below was in favor of the new law and supreme court now affirms it.

### NIPISSING STOCK STILL UNSTEADY.

By Associated Press.  
New York, Dec. 4.—Trading in stock of the Nipissing mines on the curb stock market today opened more quiet than yesterday, but the stock was still active. About 15,000 shares changed hands in the first five minutes of trading at 16 1/2 @ 16 3/4, as compared with the closing price of 16 1/8 last night.

### JUSTICE HARLAN QUITE RETICENT.

By Associated Press.  
Washington, Dec. 4.—Justice Harlan of the supreme court of the United States, has received many important letters from friends in Kentucky to permit the use of his name as the republican candidate for governor in that state in 1908. So far he has refused to make any statement but his friends say he probably will make an announcement of his position before long.

### CHIEF JUSTICE DIES IN BOSTON.

Boston, Dec. 4.—Chief Justice Andrew P. Wiswall, of the Maine supreme court, died suddenly at the Hotel Touraine in this city today of heart disease. Judge Wiswall and his wife had been staying at the hotel for about a week. He had been chief justice since 1900.

### ANOTHER HEAD TO FALL UNDER THE AX.

By Associated Press.  
San Francisco, Dec. 4.—The Chronicle today says: "Chief of Police Jeremiah F. Dinan is slated for removal from office by the board of commissioners tonight. 'Among the men under consideration for the import post are two army officers, General Woodruff and Col. Coolidge, both well known residents of this city for many years. Captain John P. Seymour, now head of the detective bureau of the Wells Fargo Express Co., and former captain of the bureau of detectives in this city is also mentioned as a successor to Dinan.'"

### BANKRUPT TOWN SOLD AT AUCTION.

By Associated Press.  
New York, Dec. 4.—A Worcester, Mass., special to the Tribune says the entire town of Wilkesonville will be sold at public auction. The town was once one of the most important manufacturing places on the Blackstone river. Now every house, store, mill and water privilege is going under the hammer.

The town has been in a state of stagnation since 1897. It is on the New York, New Haven and Hartford railway. Its history dates back to 1815 when Asa Waters bought a large farm which he sold in 1822 to David Wilkeson, of Providence, from which the town derives its name. He built the mills and started the town.

### FURTHER NOISE FROM FINDLAY, O.

By Associated Press.  
Findlay, O., Dec. 4.—If the information asked for in a motion filed in the case of the State of Ohio vs. the Buckeye Pipe Line Company in the circuit court is granted the inner workings of the Standard Oil company will be laid bare. up on the court records of Hancock county. The motion asks that all of the directors in the Standard and its subsidiary companies be named and that all the books and vouchers of the company be produced. An accounting of all the oil transported on its lines in ten years is also asked and to whom shipped and who paid shares. It is the most sweeping request yet filed in these famous cases.

### SENTENCE REDUCED.

By Associated Press.  
Columbus, Dec. 4.—Governor Harris today commuted the five year sentence of Edward Malloy, Muskingum county, convicted of burglary and larceny in 1904 and sent up for five years to three years, imposing the liquor condition. Malloy broke into a freight car while drunk and stole two boxes of lemons worth probably \$5.

### Russian Political Prisoner Arrives in This Country.

### HIDDEN IN A BARREL

### Belonged to Fighting Organization of Revolutionists.

### By Associated Press.

San Francisco, Dec. 4.—Gao Gershuni, a Russian political prisoner, of Siberia, arrived here on the China yesterday. He escaped from the Akty prison in Siberia, concealed in a barrel of sauer kraut.

Gershuni was one of the organizers of the fighting organization of the Russian revolutionists party. Gershuni was arrested in May, 1903, and in March, 1904, was sentenced to be hanged. As he had never assisted personally in the killing of any body, his sentence was commuted to life imprisonment in the Schlessburg penitentiary. He was afterward transported to the prison at Akty, near the Manchurian border.

### BASS LIKELY TO SUCCEED BROWN.

By Associated Press.  
Washington, Dec. 4.—The president has practically decided to appoint Lyman K. Bass, United States district attorney for the district of Buffalo in place of Chas. H. Brown, who has been elected to a seat on the supreme court bench of the state.

## LAST CHANCE

### To Save His Life Has Failed Utterly.

### Father and Negro Accomplices Hanged For Foul Murder.

### END OF BITTER FUED

### In Which the Children Were Made to Play Awful Part.

### Youngsters Pitted Against One Another In Their Father's War.

By Associated Press.  
Valdosta, Ga., Dec. 4.—The crime for which J. G. Rawlings and Alf Moore were hanged today, presented unusual features. Rawlings and W. L. Carter were neighbors, twelve miles from here. Both were Baptist ministers. Several years ago a dispute arose as to the line between their respective farms. Litigation had resulted. Carter was wounded by a shot from ambush and Rawlings arrested for attempted murder. A few days later, on June 13, 1905, a night attack was made on the Carter home. Two of the children Willie and Carrie Carter were shot just outside the house and shots were fired, without effect, at Carter and his wife and another daughter. The wounded boy informed his parents that Milton and Jesse Rawlings had shot him. He died the next day. After shooting the children the attacking party attempted to set fire to the house but were fired upon and driven off without further casualties.

A coroner's jury found that the crime had been committed by Jesse and Milton Rawlings and a negro. The latter confessed, telling of a plot which had been planned by the elder Rawlings for the murder of the entire Carter family and the burning of their house. J. G. Rawlings, the elder, took no immediate part in the crime, having gone to Valdosta to avert suspicion. The trial, which lasted two weeks, resulted in a verdict of death for the elder Rawlings, his sons Milton and Jesse and Alf Moore.

A third son, Leonard Rawlings, was given a life sentence as an accomplice. Then began a fight for life. Every legal expedient has been resorted to, causing the day of execution to be postponed from time to time as each successive temporary advantage was gained by the defense.

The verdicts in the case went to the higher court, then to the supreme court of the United States then to the state supreme court on an extraordinary motion and then to the board of pardons. The verdict below has been sustained in each instance. Governor Terrell's refusal on Monday to interfere with the execution of the death sentence today destroyed their last hope. The cases of the two Rawlings boys, who were under sentence to be hanged Friday, will come before the board of pardons Thursday.

### ONE OF THE FEW GIVEN ANY CREDIT.

By Associated Press.  
Washington, Dec. 4.—Lieut. Gen. C. E. Kondratovitch, chief of the fifth east Siberian rifle division, and said to be the youngest officer of that rank in the Russian army, was a visitor at the war department yesterday. He renewed his acquaintance with Brig. Gen. Barry who was one of the U. S. military observers accompanying General Kuropatkin during the Russian-Japanese war.

General Kondratovitch is on his way to St. Petersburg from the far east. During the war with Japan his corps was constantly in battle. As an illustration of the fury of his engagements, General Barry said it lost over three hundred officers and eleven thousand men. General Kondratovitch was seriously wounded in the right breast. In Japan where he stopped en route to the United States he was accorded a cordial reception.

## MEN WILL BE HELD FOR MURDER TRIAL.

By Associated Press.  
Washington, Dec. 2.—The supreme court of the United States has decided the habeas corpus cases of Moyer, Haywood and Pettibone, the representatives of the Western Federation of Miners, who are held in prison in Idaho, on the charge of complicity in the murder of former Governor Stuenkel, adversely to the men.

The opinion was by Judge Harlan. Effect of the decision will be to hold the men in confinement for trial in Idaho.

### MONTREAL FIRE CAUSES BIG LOSS.

By Associated Press.  
Montreal, Dec. 4.—Fire in the downtown business district early today caused a loss of \$150,000. The fire started in the store of the Excelsior Clothing Company in Notre Dame street and spread to the right and left and read. Zero weather and the narrowness of the streets handicapped the work of the firemen. Twelve firms sustained losses ranging from \$2,000 to \$15,000.

### HISTORIC CHURCH WILL BE RESTORED.

Washington, Dec. 4.—Historic Old Falls church in Virginia from which the village of Falls Church derived its name and at which church President Washington worshipped for years, is to be restored. This work is to be undertaken by the American historical preservation society at the request of Rev. G. S. Somerville the rector of the church.

### GENTLEMAN FRIEND

### Has a True Blue Pal in His Lady Accomplice, Mary.

### BOTH BAD BURGLARS

### Operating With Much Success in Vicinity of New York.

By Associated Press.  
New York, Dec. 4.—Secluded on the rear porch of Jos. J. White's home on Pelham Heights where she was waiting for her accomplice, Mary Brown, alias Mary Cook, West Chester county's first female burglar was arrested early yesterday. According to the confession made to Chief of Police Marks the prisoner admits taking part in twelve Mount Vernon robberies within two weeks and sharing in at least \$5,000 worth of plunder. The woman and her male partner operated with great profit not only in West Chester county, but in Brooklyn, and in the wealthy towns through Long Island.

Although pleading clemency for herself, Mary refused to tell the name of her "gentleman friend", as she calls him.

"I would rather serve forty years myself than squeal on my love" said the prisoner after she had been arraigned before Justice Karbach and held until Friday for further examination. The prisoner gave her age as 40.

### SLANDER AND RUM ARE ACCOUNTABLE.

Steubenville, O., Dec. 4.—Standing at the foot of a stairway in a house occupied by Mrs. Whittier, Harry S. Bell shot and killed William Roach a bar tender. Two bullets entered Roach's breast. Bell went to the house intoxicated it is said by the police to shoot Mrs. Whittier for circulating an evil report about him. Roach her lover, started to come to her assistance when shot. Bell was arrested. Roach was 34 years old and his home was in Nova Scotia.

### PEOPLE OF MADRID GREATLY EXCITED.

By Associated Press.  
Madrid, Dec. 4.—The populace of Madrid are greatly excited over the cabinet crisis. Anti-clerical manifestations continued throughout the night and the police were compelled to charge the crowds. Many persons were injured, among them the grand vicar of Madrid, who was hit by a stone.

About 2,000 women of the aristocrats headed by Dutchess Balien have petitioned the king against the law of associations.

## NIGHT RIDERS

### Who Committed Crime of Arson

### Now Threaten the Life of Their Prosecutors.

### AN ARREST IS MADE.

### State Fire Marshall Ayers Summons a Number of Witnesses

### Including Those Who Were Molested by Masked Marauders.

### By Associated Press.

Princeton, Ky., Dec. 4.—An inquiry to fix the responsibility for the mob of night riders which destroyed the big tobacco houses here Saturday was begun by the state fire marshal, Ayres, Monday afternoon.

Among those called upon to give evidence are the three policemen who were disarmed by the masked men. The two telephone girls who were forced to leave their post, the telegraph operator and scores of citizens who heard the mob in its rush through the streets of Princeton. There is much excitement here, the citizens fearing the effect of the investigation of the trial of Wm. Winters, the section foreman of the Illinois Central road who is under arrest under the charge of complicity in the affair. Circuit Clerk Gardner has been urged by a number of the leading citizens to take all precautions against any violence toward himself. It was on his affidavit that Winters was arrested and although no outright threats have been made against him there have been some reports that unless he dropped the prosecution he would be harmed by the night riders.

### TEXAN WANTS TO OUST ALL NEGROES.

By Associated Press.  
Washington, D. C., Dec. 4.—Representative Slayden, of Texas, today introduced a bill which provides that "On or before the 30th day of June, 1907 all enlisted men of the army who are negroes or of negro descent shall be discharged from the service of the United States and thereafter no negro or person of negro descent shall be enlisted or appointed in the army of the United States."

### UNUSUAL FLURRY IN OHIO VILLAGE.

By Associated Press.  
Milford, O., Dec. 4.—Fred Bennett, a negro, was shot and fatally wounded by William Redman, while on a farm near Terrace Park, Monday afternoon. Redman admits the shooting and says the reason is the fact that Bennett owed him a dollar. The negroes of the vicinity were greatly enraged and a posse headed by the father of the man who was shot, searched the town for Redman and afterwards caused considerable excitement by attempting to force their way into Milford jail where Redman had been taken for safe keeping.

### WILLIAM RUSSELL GETS A VACATION.

By Associated Press.  
New York, Dec. 4.—William W. Russell, the American minister to Venezuela and Mrs. Russell, arrived here today from Caracas for a leave of absence of sixty days. Mr. Russell said that the political situation in Venezuela was absolutely quiet and President Castro, who has been ill, was much better when Mr. Russell sailed for New York.

### MORE EVIDENCE OF YELLOW PERIL.

By Associated Press.  
London, Dec. 4.—It was announced this afternoon in a special dispatch from St. Petersburg that intense activity prevails among the Japanese in Manchuria and that according to information received at the Russian war ministry fresh Japanese regiments are being drafted into Manchuria by way of Korea. Local Russian reports, it is added, say that the Japanese and Chinese opened threaten to compel the Russians to retire as far as Baidel.

## DICK IN OPEN

## Declares for Foraker for President.

If His Colleague Wants Nomination He Can Have Ohio.

## BOOMERANG FOR TAFT

Senator Charles Dick Talks Real Politics in Washington.

Laughs at the Charge Made by State Chairman Garber.

Senator Charles Dick, on arrival in Washington for the opening of congress yesterday, came right out in the open and declared if his colleague, Senator Joseph Benson Foraker was after the nomination for president in 1908, he could have the state of Ohio. Senator Dick in no manner hesitated, and in his declaration is seen the doom of one Wm H. Taft, secretary of War. The steel-lined compact of the senatorial alliance is a guarantee that if Dick says Ohio is for Foraker, Ohio will be for Foraker and even Roosevelt is powerless to protect his pet secretary of war. The dispatch telling of Dick's view is highly interesting to the "old guard" and is as follows:

Washington, D. C., Dec. 4.—Senator Charles Dick, the head of the republican state organization in Ohio, went on record today as favoring the endorsement of senator Foraker by Ohio republicans in case his colleague is a candidate for president in 1908. The general arrival in Washington this morning for the session, and it was in the course of a short conversation on political affairs that he thus committed himself. He was asked: "Who will get the endorsement of Ohio republicans for president year after next?"

Senator Foraker, if he wants it.

## MANY WATER SPORTS

Arranged For the Great Jamestown Exposition Next Year.

## FOUR RACING CUPS

Presented by Roosevelt, Edward 7th, the Kaiser Sir Thomas Lipton.

(By Willard Homan.)

Norfolk, Va., Dec. 4.—In their wide range and keenness of contest, the water sports of the Jamestown Ter-Centennial Exposition to be held at Hampton Roads near Norfolk, Va., next year will excel any ever held in the history of water sports. The catalogue of water sports will include not only the most complete series of yacht races but also a week of motor boat racing, rowing matches and canoe speed trials.

Adding to the interest of the yachting regattas is the fact that the four foremost exponents of this form of sports have presented cups to be contested for. These are President Roosevelt, King Edward VII of England, Emperor William and Sir Thomas Lipton, well known to the Americans for his repeated efforts to win the America cup and the cheerfulness with which he has accepted defeat. Sir Thomas has promised to the races next year in his splendid yacht, the Erin. At this writing he is in this country and expects to visit Hampton Roads, the scene of the races before his return to England if he can so arrange his affairs.

It is planned to have a rating for each class of cruising yacht so that all representative boats may enter the races. Freak boats will be relegated to a class by themselves open to all boats not more than forty feet in length. The international championship races will be sailed by boats of the "Q" class which are less than thirty feet in length. This rating has been adopted for the regatta in order to allow foreign built boats to compete. It is expected that there will be a large contingent of these boats from abroad present at the races as already a great many inquiries have come from European countries.

The rules adopted for the government of the races are the same as those of the Atlantic coast conference of 1905.

There will be nineteen races in which boats sailed according to the rules of the yachting rules of the Atlantic coast conference will be entered. In addition to these ratings there will be a free for all race and one for the "bugeye" boats which are found extensively on the Chesapeake Bay alone. There are seven ratings schooner yachts running downward in length from 50 feet over all to 40 feet. For sloops there are twelve ratings ranging in size from 15 over all to 100 feet over all.

The regattas are under the supervision of an able committee representing eleven of the great yachting districts of the United States and Canada. Charles W. Longstrech, Rear Commodore of the Corinthian Yacht Club, of Philadelphia, is the chairman of this committee and has already surveyed nine courses in Hampton Roads and vicinity which the full committee will act upon. The longest of these courses is thirty-three miles long and the shortest is 7 1/2.

Rowing events at the Exposition will be run off under the joint auspices of the Jamestown Exposition and the National Association of Amateur Oarsmen. Henry Philip Burchell, while recently in England, invited the more famous crews of English oarsmen to come to the Exposition to take part in the races. In case the English crews decide to visit America, they will come as guests of the Jamestown Ter-Centennial Exposition.

More than a hundred motor boats will participate in the "Jamestown

## Do You Open Your Mouth

Like a young bird and chirp it up what ever food or medicine may be offered you? Or do you wait till you are suffering from the effects of indigestion and then try to get rid of it by using a cathartic?

Most intelligent and sensible people now a days insist on knowing what they eat and what they drink and what they do. Dr. Pierce believes they have a perfect right to know what they are doing. So he publishes a book and on each bottle of medicine what his medicines are made of and what they will do. This he feels he can best do by telling the people the ingredients of which his medicines are made and what they will do.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging down of the womb, in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating pelvic catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming. This rendering childbirth safe and comfortable upon functional and organic diseases of the female system, strengthening tone to the general system and to the organs distinctly feminine in particular. It is a safe, soothing and invigorating medicine and cures nervous exhaustion, nervous prostration, neurasthenia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attending upon functional and organic diseases of the female system.

A host of medical authorities of all the several schools of practice, recommend each of the ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. K. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

International Motor Boat Carnival. Many of these will come from abroad where a great deal of interest is being taken in the races. Like the yachting regattas these motor boat races will be handled in conjunction with the authorities of the Exposition by a committee of eleven representing all the important motor boat racing associations of the United States and Canada.

The races will be run off the great piers of the exposition which will form an excellent point of vantage from which to observe the races. In addition to the motor races there will be held a gigantic exhibition of motor boat appliances which will cover more than sixty thousand feet of floor space.

During the carnival motor boats will be decorated so as to represent various historical events. For the first time in a carnival of this kind de-natured alcohol will be extensively used as a motor boat fuel and an effort will be made to discover which gives the best results as a speed maker.

## Iron-Ox

## TABLETS CURE Constipation

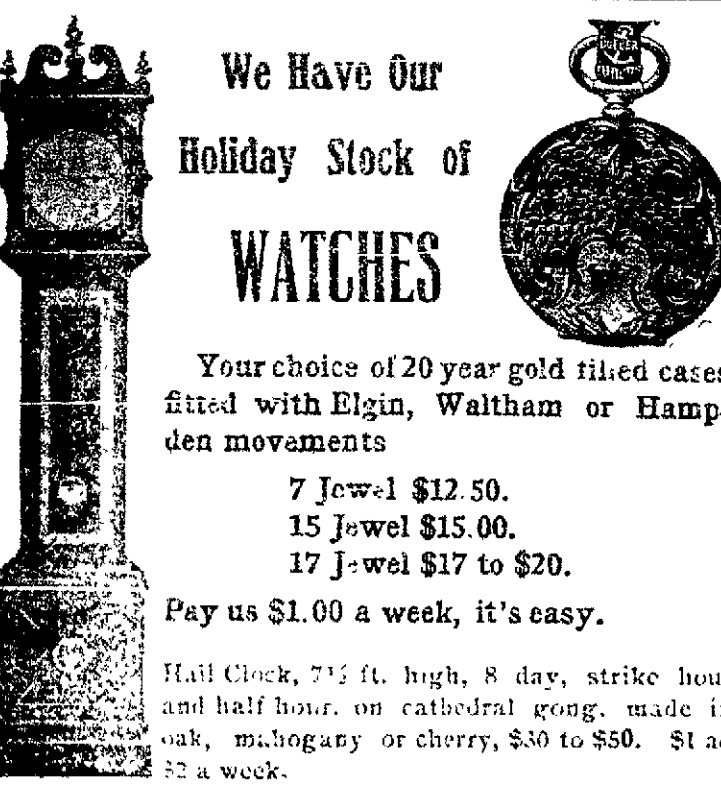

## The Awful Consequences

of neglecting the bowels are not fully realized. Eminent doctors say that nine-tenths of the sickness of the human race starts from the poisons that sluggish bowels should remove from the body but do not.

If your bowels are healthy and active, your power to resist disease is strong. When the bowels are inactive and sluggish, you become weak, nervous and debilitated—an easy prey for any disease that happens along.

Iron-Ox Tablets are a tonic for the bowels. Take them when you feel the slightest tendency toward constipation, and you will save doctor's bills.

50 Iron-Ox tablets in a handy aluminum pocket case, 25 cents. Extra large family size, 50 tablets \$1.00. Trial package free. At all druggists or by mail prepaid. The Iron Ox Remedy Company, Detroit, Mich.

in No. 8, S. DeGraft farm, section 17.

In Washington township, Van  
Wert county, the Delphos Hoop Co.'s  
No. 2, L. Armstrong farm, section  
18, is a gas well.

In Monclova township, Lucas  
county, Robt. G. Stitt has found a  
duster in a test on the John Prey  
farm, in the northeast quarter of  
section 28.

In Salem township, Wyandot coun-  
ty, the Maloney Oil Co. has a 25 bar-  
rel pumper in No. 7, F. & L. Binan  
farm, section 2.

In Crawford township, Wyandot  
county, T. B. Allen & Co.'s No. 15, T.  
B. Allen farm, section 28, is a 20  
barrel pumper, and their No. 1, on  
the J. Bookwater farm, section 20,  
proved a duster.

**Leasing in Indiana.**  
A test well that is reported as  
showing oil has been drilled in Vigo  
county, Indiana, and near Terre  
Haute, and about 35 miles east from  
the Casey field. Many leases are be-  
ing taken in the county.

The India Oil & Gas Co. has been  
organized at Attica, Ind., for the pur-  
pose of developing lands in Wabash,  
Fulton and Mill Creek townships,  
Fountain county, Ind., where they  
have secured leases on about 3,000  
acres. The first well will be on the  
David Elwell farm, near Gates sta-  
tion, on the Clover Leaf railroad. A  
test well was put down in that vicin-  
ity a month or so ago, and abandon-  
ed as worthless.

Muncie, Ind., Nov. 4.—The Jarecki  
Supply Co., has filed suit against the  
Hutchins Oil Co., John Griesheimer,  
Joseph Hort, Clarence McNaughton,  
Charles Johnson and others asking  
that each of the stockholders of the  
company be made individually re-  
sponsible for the contracted debt of  
the concern and the payment of a  
judgment of \$400.

A judgment for \$368.75 and  
\$23.35 costs was secured against the  
company in Randolph county court,  
but the company having not prop-  
erty which could be attached, the  
judgments remains unpaid. The ac-  
count over which the litigation has  
resulted is for some supplies pur-  
chased by the Hutchins Oil Co. dur-  
ing the halcyon days of the Muncie  
oil boom.

**Foreign Capitalists in It.**  
Attorneys Griffith & Ross, acting  
for Collin W. Claybourne, a broker,  
of Chicago, filed a complaint in the  
Delaware county circuit court asking  
for a judgment of \$32,000 against  
the Dome and St. Louis Oil Com-  
panies and asked that their prop-  
erties in Delaware county be attach-  
ed. The Delaware County National  
Bank is made garnishee defendant  
in the suit, it being alleged that the  
companies have money on deposit  
there.

The two companies are owned by

A. Sanderson, Major Lees, Alger-  
non Dewhurst and J. R. D. Graham,  
of Liverpool, England. It is thought  
that the suit will not come to trial,  
as a compromise is looked for when  
the English owners learn of the suit.  
The company's holdings are on the  
Reese farm, south of New Burling-  
ton.

**Oil Wizards Bad Guess.**

The test well drilled on the Chas.  
Allred farm, north of Fairmount, in  
Fairmount township, Grant coun-  
ty, Indiana, which was to be drilled  
to a depth of 2,200 feet, has been  
stopped at a depth of 1,300 feet be-  
low the surface and put to pumping.  
The drill penetrated a perfect sea of  
blue lick water, but as yet no traces  
of oil have come to the surface. It  
is learned that the parties who are  
putting up the cash for this test of  
the field are working after an "oil  
wizard," who claims that he has  
never picked out a bad location for  
a well in his history, but the average  
oil man is smiling at how the na-  
tives are taken in by the "divine rod  
shark."

**Late Indiana Wells.**  
In Nottingham township, Wells  
county, Long & Barton have drilled  
in a 15 barrel pumper in No. 5, on  
the G. S. Dickens farm, section 18.  
This rig has been up and ready to  
drill for at least a year.

In Jackson township, Wells coun-  
ty, the Hazelwood Oil Co.'s No. 11,  
L. J. Roush farm, section 18, is a 10  
barrel pumper. The Ohio Oil Co.'s  
No. 3, C. Alexander farm, section 34,  
pumped 5 barrels, and Bream &  
Crowley's No. 5, Lewis Huffman  
farm, section 1, pumped 8 barrels.

In Chester township, Wells coun-  
ty, the Ohio Oil Co.'s No. 13, John  
Gruver farm, section 17, pumped 75  
barrels, and is an exceptionally fine  
well for that oil territory.

In Washington township, Black-  
ford county, the Erie-Crawford Oil  
Co. has a duster in No. 6, on the J.  
C. Williams farm, section 1.

In Harrison township, Blackford  
county, the Ohio Oil Co.'s No. 9, on  
the M. Pugh farm, section 6, pump-  
ed but 4 barrels.

In Penn township, Jay county, the  
C. W. Maxwell Oil & Gas Co. hit a  
century producer in No. 8, on the  
J. H. F. Pugh farm, section 8. The  
well actually pumped 105 barrels.

In Jackson township, Jay county,  
J. E. Haskell's No. 2, H. Blair farm,  
section 3, pumped 10 barrels.

In Bear Creek township, Jay coun-  
ty, Peter Hamilton has a fine pro-  
ducer in No. 5, on the H. C. Line-  
berry farm, section 5. The well  
pumped 125 barrels. The Warren-  
Indiana Oil Co. has a 50 barrel  
pumper in No. 3, H. B. Bryan farm,  
section 3, and the Superior Oil Co.'s  
test on the J. B. Jeffries farm, in  
the northwest quarter of section 21,  
pumped 30 barrels. The Scotland  
Oil Co. has a 25 barrel pumper in  
No. 6, Geo. Pfandling farm, section  
29, and the Warren-Indiana Oil Co.  
one good for 20 barrels in No. 2,  
James Bucher farm, section 3.

In Van Buren township, Grant  
county, the Huntington Light & Fuel  
Co.'s No. 11, Mike Doyle farm, sec-  
tion 34, pumped 20 barrels.

In Fairmount township, Grant  
county, the Ohio-Indiana & Kansas  
Oil Co. has a duster in a test on the  
G. Jarne farm, in the southeast  
quarter of section 17.

In Center township, Grant county,  
the Ohio Oil Co. has a 60 barrel  
pumper in No. 19, on the D. H. Hor-  
ner farm, section 16.

In Salamant township, Hunting-  
ton county, the Ohio Oil Co.'s No.  
27, G. S. Good farm, section 32,  
pumped 10 barrels, and the same  
company's No. 1, Thos. Foust farm,  
in the northwest quarter of the same  
section, pumped 10 barrels.

In Wayne township, Huntington  
county, the Ohio Oil Co.'s No. 14,  
A. Callontine No. 1 farm, section 34,  
pumped 55 barrels.

In Delaware township, Delaware  
county, the Kentucky Coal & Min-  
ing Co.'s No. 12, D. Michaels farm,  
section 15, pumped 175 barrels, and  
Chas. N. Taylors No. 3, Harriett  
Boots farm, section 15, pumped 5  
barrels.

In Mt. Pleasant township, Dela-  
ware county, J. S. Campbell has  
drilled in a light gas well on his  
farm, section 23, and will utilize it  
for heat and light for his residence.  
The Muncie Co-Operative Gas & Oil  
Co. has a light gas well on an un-  
known farm, near the Campbell farm  
well.

In Niles township, Delaware coun-  
ty, Luton & McCarlsons No. 3, on  
the J. & L. A. Bales farm, section 25,  
pumped 25 barrels.

## MAKING READY

### Hard Struggle for Harry Thaw's Life.

District Attorney Jerome  
Has Agreed to the  
Request

## MADE BY DEFENSE

That Commission be Ap-  
pointed to Take the  
Testimony

Of Those Needed in the Case  
and Yet Live Outside  
the State.

By Associated Press.

New York, Dec. 4.—A motion of  
counsel for Harry K. Thaw, that a  
commission be appointed to take the  
testimony of witnesses outside the  
state has been granted by Judge New-  
burger in the supreme court. It will  
be an interrogatory commission  
and testimony will be taken of wit-  
nesses for both the prosecution and  
defense.

The motion was made by Clifford  
Hartridge, who suggested an open  
commission and named as the wit-  
nesses whose testimony is desired,  
Thomas McCaleb and Truxton Beale,  
both of whom he said, are in Cali-  
fornia.

District Attorney Jerome told  
Justice Newburger he had no objec-  
tion to the appointment of commis-  
sion to take testimony providing it  
be allowed to take the testimony of  
witnesses for the prosecution who are  
outside the state. He also said that  
in open commission was suggested  
by Mr. Hartridge and would be un-  
satisfactory for the reason that it  
could ask all kinds of questions and  
that it would take considerable time  
to get the testimony in.

He said that an interrogatory  
commission could be appointed and  
that only prepared questions would  
then be asked. Mr. Jerome said he  
wanted to the testimony of the moth-  
er, brother and sister of the defen-  
dant's wife and possibly that of a  
witness who is now in South Africa.

## THE STAGE.

It takes an exceptionally strong  
dramatic attraction to survive the  
seasons, with the discriminating  
press and public of today, but when  
a play can look back over three sea-  
sons of phenomenal business, and  
still not show the slightest indication  
of waning popularity, it shows that  
some discriminating press and public  
"to sit up and take notice." That  
is the record of "The Warning Bell"  
which comes to Faurot opera house  
tomorrow night.

THE MESSAGE TO CONGRESS.

## AS A REFORMER

Herman Chase Appeared  
Before Mayor.

Requested the Big Boxing  
Match at Hamilton be  
Stopped.

HARRIS ON HOME RULE

Governor Will Not Interfere  
If the Mayor Gives  
His Permit.

Ministers Will Seek to Stop  
it by Injunction  
Proceeding.

Herman Chase, former secretary of  
the Lima Y. M. C. A. is uniting in his  
efforts to stop the boxing carnival ar-  
ranged for tomorrow night at Hamil-  
ton, where Chase is now secretary of  
the Y. M. C. A.

With a delegation of ministers and  
citizens, Mr. Chase called on the May-  
or of Hamilton yesterday, but receiv-  
ing no satisfaction secured Governor  
Andrew Harris by long distance.

Governor Harris evidently believes  
in home rule, as the interview with  
Mr. Chase and the executive is reported  
in a dispatch out of Columbus as follows:  
Columbus, O., Dec. 4.—Governor  
Harris was last evening called up by  
Secretary Herman D. Chase, of the Y.  
M. C. A. of Hamilton, and asked to  
interfere in a proposed boxing contest  
scheduled for the opera house in that  
city for Wednesday night. Mr. Chase  
informed the governor that Mayor  
Thomas, of Hamilton, had issued a  
permit for the contest and had an-  
nounced his intention of being present  
at the affair, in order as he said, to see  
that the law was observed. The chief  
executive cited the celebrated Cincin-  
nati case to Mr. Chase, recalling the  
decision of Judge Howard Hollister in  
enjoining the Jeffries-Rubin match for  
the benefit of the Sausagefest Association.

He asked Mr. Chase to seek legal  
counsel, and informed him that, if nec-  
essary, the services of the attorney  
general's department would be placed  
at his disposal. Governor Harris told  
him that he had no power over the  
mayors of the state, but informed him  
further that impeachment proceedings  
might be instituted against the mayors  
if they defied the law.

"The probate judge," said Mr. Chase,  
"why, he's worse than the mayor."  
Being assured that this was all that  
could be done he left the phone, saying  
that the boxing match matter would  
be taken up tomorrow. In the event  
that his aid is again solicited Governor  
Harris will consult with the attorney  
general as to the proper procedure in  
the premises. It is not generally un-

derstood that it was the courts of Ham-  
ilton county, and not Governor Nash,  
that stopped the Cincinnati contest.  
Ever since that time those opposed to  
these contests have appealed to the  
governor, who is in reality powerless  
unless asked to interfere by the sher-  
iff of the county.

## Mayor Likes Boxing.

Hamilton, O., Dec. 4.—Secretary  
Chase, of the Y. M. C. A., and a com-  
mittee of the Ministerial Alliance called  
upon Mayor Thomas last evening  
and requested the mayor to stop the  
carnival to be given by Manager  
Jack Dougherty at the Jefferson The-  
atre Wednesday night.

Mayor Thomas told them most em-  
phatically he would not stop it, and, in  
terms that could not be mistaken, he  
delivered his opinion concerning spar-  
ring contests. He said that in his  
three years' experience as physical in-  
structor at the Y. M. C. A. he had never  
been injured in a sparring contest  
nor any one else who took part in a  
contest. "I consider it," said Mayor  
Thomas, "a far more manly, cleaner  
and higher class of sport than polo or  
foot ball, and if you stop this bout you  
can expect your polo and foot ball  
games to be stopped." Mayor Thomas  
informed the committee that the re-  
putable class and physicians had given  
their sanction to the sparring contests,  
and that three of the medical fraterni-  
ties would be on hand to make a phys-  
ical examination of the contestants.  
The ministers left, saying they would

## MAN OF SENSE

Tells What Government  
Should Do.

Standard Deserves Protec-  
tion Instead of Pros-  
ecution.

## REASONS ADVANCED

By William H. Libby, of the  
Foreign Branch De-  
partment.

European Countries Aid  
Like Companies in  
Every Way.

New York, Dec. 4.—Government pro-  
tection rather than prosecution should  
be given the Standard Oil company,  
according to a statement issued today  
by William H. Libby of the company's  
foreign department. The statement,  
which is in the nature of an appeal to  
the public, maintains that the attitude  
of the governments of Europe is favor-  
able and helpful to companies similar  
to the Standard and with which the  
Standard comes into competition.

The communication, which was given  
to the newspapers, is as follows:

No. 26 Broadway, New York, Nov.  
30, 1906.—Concurrently with attempts  
of the government to disintegrate the  
corporate organization and industrial  
equipment of the Standard Oil com-  
pany and other companies and thus  
to paralyze their great commerce at  
home and abroad, it is both interest-  
ing and pertinent to note the policy  
and progress of their most formidable  
foreign rivals.

The desirability, the necessity at-  
most, of the concentration of brains  
and capital has been recognized with-  
out exception in all important petro-  
leum producing countries of the world,  
and not only have corporations and  
holding companies on the general lines  
of the Standard organization and other  
similar American organizations been  
created but several of these have  
become international in their scope.

Cites Big Dutch Combine.  
The Royal Dutch company of The  
Hague and the Shell Transport and  
Trading company of London, two ex-  
ceptionally powerful and ably admin-  
istered corporations, have recently  
made public announcement of their  
amalgamation, one of the principal  
motives being to control the extensive  
producing and refining petroleum in-  
dustry of the Dutch Indies, and thus  
to fortify further their natural advan-  
tages of cheap labor and geographical  
locations in competing for the vast  
petroleum commerce of the oriental  
countries containing more than two-  
thirds of the world's population.

In Germany a holding company has  
recently been created under the aus-  
pices of the most powerful of the  
banks in the empire for the purpose of  
dominating the sale of both Russian  
and Roumanian products not only in  
Germany but in other European mar-  
kets. The said holding company  
unites various important petroleum  
corporations heretofore in competi-  
tion.

The Asiatic company (organized un-  
der the unfettered conditions attend-  
ing the corporation laws of Great  
Britain) comprises three of the lead-  
ing industrial corporations of England,  
France and Holland respectively, with  
the avowed mission of controlling the  
distribution of Russian and Dutch In-  
dies petroleum in the oriental markets.

Galicia, a prominent industrial con-  
cern, allied with a powerful Austro-  
Hungarian bank, has practically com-  
bined about 90 per cent of the entire  
production and refining with the avowed  
motive of rescuing the Galician in-  
dustry from a period of semidemoral-  
ization (kindred to such periods in the  
history of American industry prior to  
the extended organization of the Stan-  
dard Oil company) and to dominate  
the distribution of Galician petroleum  
products in the various export mar-  
kets of Europe.

Argument From Great Britain.  
In Great Britain efforts indicating  
ultimate fruition have been long un-  
der way toward the fusion of the  
heretofore rival corporations, the aim  
being to dominate the distribution of  
Russian and Roumanian petroleum in  
Great Britain. Such fusions are in  
no wise incompatible with the so-called  
"companies acts" of Great Britain,  
which are apparently designed to en-  
courage the utmost freedom of individ-  
ual or corporate action, so long as  
annual statements are made and an-  
nual taxes paid.

The essence of the English law ap-  
parently is that everybody has a right  
to form a combination and that every-  
body else has an equal right to com-  
bine against such combination. This  
absolute liberty of commercial action

is assumed to be the most natural cor-  
rective of temporary abuses and ap-  
parently crystallizes the wisdom of  
the most experienced commercial na-  
tion in history.

Not only the extensive and prolific oil  
fields of Burma but also the privileges  
of refining the output thereof are un-  
der the control of a single corporation  
owned by Glasgow, which is protected  
and sustained by the governments of  
India and Burma. This single corpora-  
tion has free access to the markets of  
India, with its population of 250,000,000  
while the petroleum products of other  
countries are subjected to an import-  
ant import duty.

The distribution of illuminating oil  
in the domestic markets of Russia is  
effected almost exclusively by a com-  
bination of the great producing and re-  
fining interests of that country.

## Are Praised Abroad.

The amalgamated cited (created and  
administered by some of the best in-  
dustrial brains and most prominent  
capitalists of Europe), so far from re-  
ceiving the opposition of governments,  
press or communities, so far from being  
regarded "conspiracies in restraint of  
trade" or as ingenious subterfuges  
of a trade autocracy, are regarded as  
being in the natural pathway of legiti-  
mate economic and progressive com-  
merce and are especially commended  
when the motive is emphasized of  
eliminating the American products  
from the competitive markets.

Against this array of formidable ele-  
ments and innumerable other opposing  
factors the Standard Oil company is  
fighting in the world's markets for the  
continued supremacy of American pet-  
roleum. This commercial battle could  
not be successfully waged minus the  
comprehensive organization and equip-  
ment at home and abroad which the  
Standard Oil company has created at  
such enormous expenditure and  
through such unremitting effort.

The successful maintenance of the  
supremacy of American petroleum in  
the competitive markets abroad must  
carry the penalty of a constant com-  
mercial battle, in the outcome of which  
not only the Standard Oil company  
itself is concerned but the entire pro-  
ducing industry of the United States,  
the great labor classes and a host of  
avocations directly or indirectly de-  
pendent upon its ramified operations.  
The valuation of its exports constitutes  
a highly important factor in the ad-  
justment of the international trade  
balances of the nation.

## Asks for Encouragement.

In the prosecution of its aggressive  
industrial policy the Standard Oil  
company believes itself to be fairly  
entitled to the encouragement that other  
governments are giving to similar  
business interests.

For these reasons it would seem as  
if it was most important to the general  
business interests of the country, as  
well as its oil interests, that organiza-  
tion of the Standard Oil company,  
which enables it to pursue and enlarge  
the world's markets for American pro-  
ducts, should be sustained rather than  
crippled or destroyed, for it is my de-  
liberate conviction that the volume of  
American petroleum distributed in the  
world's markets would have been im-  
measurably less under a less compre-  
hensive equipment and policy than that  
of the Standard Oil company.

## TERRIBLE TURK

Will Be Followed by Russian Man Eater.

The "Terrible Turk" and his terrible  
clothes will now give way to the "Russian  
Wonder" who "Eats 'em Alive."  
The Turk went down before Bartl in  
18 minutes last night and then the  
Russian, another unheard of "Wonder"  
challenged the fighting Canadian for a  
handicap match, offering to throw him  
three times in an hour. Bartl refused  
to accept the handicap but will under-  
take the more difficult task of winning  
in a straight match with the big man.

## WORD AWAITED

From the Capitol on the Judgeship.

Even Favorites with Strong Backing Are Mead and Quail.

## HENDERSON NOW OUT.

He Believes No Appointment Will Come For a Few Days.

Judge John M. Killitts Presiding on the Local Bench.

"I returned last night, leaving Columbus before the Mead delegation arrived," said attorney Don C. Henderson, who for a time was considered a strong possibility in the selection of a new common pleas judge. "Yes, I am out of it entirely," continued Mr. Henderson. "As to the appointment I would say that it will not be made for two or three days. Both Mr. Quail and Mr. Mead have very prominent men behind them, and strong influence is being brought to bear at different angles."

Mr. Henderson would not make a prediction to just which one he believed to have the most favorable chances. The judgeship since his retirement from the race has narrowed to the two men—George H. Quail, the republican leader, and attorney F. E. Mead. Mr. Quail is backed by the endorsement of the republican county committee, a majority of the Allen county bar and the endorsement of the Mercer county bar. Mr. Mead has some of the strongest legal firms in the city on his petition, has the endorsement of the Auglaize county bar, and has a close friend of the Governor, Hon. S. S. Wheeler handling his campaign. Shelby county refused to endorse either candidate, and no other candidates have appeared, though one was to be expected from Auglaize.

Pushing his claims personally in Columbus, Mr. Quail has Jim Halfhill and Frank Downing, Warren G. Harding, Malcolm Jennings, of Lancaster, and others. Because of the fact that Governor Harris and S. S. Wheeler are close personal friends, the stock of Mead remains at par, an equal choice with Quail and who will land the plum is left to a mere guess.

## JUDGE KILLITTS HERE

Jury Found John Thomas a Parent of Unclaimed Child.

Judge John M. Killitts, of Bryan, arrived here late yesterday afternoon and at once took up the case of Mattie L. Finney vs. John Thomas, action on a paternity charge. The child in question was in court, and after being out less than an hour the jury declared Thomas the father.

This morning Judge Killitts heard arguments in a replevin case of Wm. F. Hoover vs. J. E. Phillips, regarding purchase of furniture on the installment plan.

The second case of the day is a jury cause, and an echo of the famous Slater shooting affair of last fall. Dr. U. S. Beam, who attended the bandit-robber-king after the fatal shooting, is suing "red" Nichols, his friends, and others to recover judgment for medical fees.

## BOTH CANDIDATES HOME.

Neither Expects Governor to Name Judge Today.

Both of the applicants for the judgeship arrived home today at noon and neither is expecting the governor to name his man before tomorrow. The delegation pushing the claims of Mr. Mead was granted an audience with the executive last night, the Quail adherents having previously been admitted during the day.

Commissioners in Session... Though they have been in quarterly session for the past two days only the routine has been taken up by the commissioners who will have a final reading on a new road tomorrow.

Baxter's Loss. Dogs gained entrance of Deputy Sheriff Baxter's henry on north Main street, last night, 23 chickens being killed.

Before Supreme Court. Attorneys S. S. Wheeler for defendant and I. S. Motter for plaintiff, are before the supreme court at Columbus today making arguments in the case of Mahaffey vs. the Pennsylvania Co.

Granted a Decree. Judge Killitts granted a divorce to Ethel Eley from her husband, Richard, on the grounds of gross neglect and wilful absence.

## FIFTEEN YEAR OLD

Girl Prosecuting Witness in Charge of Alleged Assault.

## BOY LOVER NOT THERE

Case Continued on Strength of a Good Bond on File.

Charged in an affidavit alleging that he committed a criminal assault upon fifteen year old Sylvia Ingledue, Lewis Ford, an employee of the Lima Locomotive and Machine Works failed to present himself for trial in Judge Dempster's court this morning.

Ford was arrested on Thanksgiving night, and latter entered a plea of not guilty, giving bond in the sum of \$500 for his appearance at nine o'clock this morning. His attorney, C. L. Fess, the prosecuting witness and her father who filed the charge along with several witnesses and a court stenographer were ready for the case to be called, but no defendant appeared.

After waiting until eleven o'clock, Judge Dempster continued the case indefinitely. On the bond of the defendant are Lewis Ford, the principal; G. W. Ford, C. L. Fess and G. B. Ford. The charge of the young girl was preferred by Alvin Ingledue, and alleges the crime of criminal assault against the young girl's will, to have occurred on the night of April 29th last.

## When to Go Home.

From the Bluffton, Ind., Banner: "When tired, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have had cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For Sale by All Druggists.

DANGER IN ASKING ADVICE. When you have a cough or cold do not ask some one what is good for it, as there is danger in taking some unknown preparation. Foley's Honey and Tar cures coughs, colds, and prevents pneumonia. The genuine is in a yellow package. Refuse substitutes. Wm. M. Melville, Old Postoffice corner.

## A Home Made Happy by Chamberlain's Cough Remedy

About two months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had two doctors but no relief was obtained. Everybody thought she would die. I went to eight different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—Geo. W. Spence, Holly Springs, N. C. For sale by All Druggists.

## Chesty Van Anda, Star of the Central League Gives Interview on Ego

TO BOGUS HUMORISTS. He Pays a Tribute and Says He Will Be Pitching Ball For Years.

Edward S. Van Anda, who played through the recent base ball season with the Grand Rapids team, of the Central league, gave a talk to the editor of the Sporting News the other day. In the interview Van Anda said:

"I see that Baltimore has drafted me. That's all right, if the contract that Hanlon's club sends me is satisfactory. I made up my mind that I would not go back to Grand Rapids unless the \$130 that Ganzel took away from me was returned to me. I do not question the right of a manager to fine a player, but that amount of money was rightfully mine and I want it. Last year after he had imposed that fine on me I would not have had to work hard unless I wanted to and could have warmed the bench.

You know we won the pennant on last two trips and I pitched the majority of the games on these trips when I could have been on the bench. I may go into independent ball. Jimmy Callahan is after me for his Chicago independent team and as the money is just as good I'll go with him if Hanlon don't come clean. I have been styled Chesty Van Anda, called eccentric and given a pretty raw deal all around, but I have not allowed these things to interfere with my work.

It may be that everything I say and do does not please every newspaper writer, but I see no reason why some of these fellows go out of their way to try to make trouble for me. I'll be pitching several years longer, whether I get a square deal in comic columns of space writers or continue to be a mark for bogus humorists."

It is the best safeguard against indigestion, biliousness and dyspepsia, known to mankind. Holister's Rocky Mountain Tea or Tablets, 35 cents. —H. F. Vorkamp.

TWO LIVES LOST IN BROOKLYN BLAZE. By Associated Press. New York, Dec. 4.—Two lives were lost in a fire which caused slight damage to a dwelling 1, Sumner street, Brooklyn, today. One of the victims was Frances Meunstedt, the two months old daughter of Fred Meunstedt. The infant had been left in the house by her mother who had gone to a nearby store. Its body was found in its carriage after the fire was extinguished. The other victim was Milne, the sister of Francis. She jumped from the upper window to escape the flames and received injuries which resulted in her death.

Such is the Fear of His Relatives Over the Pugilist. ACTED VERY STRANGE. Sent to the Hospital Where an Inquest Will be Held.

By Associated Press. New York, Dec. 4.—Terrence McGovern, the prize fighter, who is matched to fight "Young" Corbett, in Baltimore, late in January, was taken to the observation ward of the Kings County Hospital in Brooklyn today for examination as to his sanity.

Accompanied by his wife and stepfather, Joseph Kenny, McGovern arrived from Washington and went to his home in Brooklyn. According to the police he acted in so peculiar a manner at home that Mrs. McGovern was frightened. He then left the house and probed with a stick into the ash barrels along the curb. When the wagons came to remove the ashes, McGovern is said to have pursued the drivers with his stick, but said he was doing it playfully. A policeman stopped him and brought him to the police station where McGovern was examined by Dr. Howell, of the Seny Hospital, who said the fighter appeared to be insane. McGovern went to the hospital without protest.

The Erie Spilled Standard Oil. Last night's Marion Mirror gives the following account of a small wreck on the Erie:

An Erie wreck which resulted in considerable damage being done occurred at 3:30 this morning, directly west of the Kenton avenue crossing. The west yard switching crew was backing a cut of several cars onto a switch when two heavy oil tanks belonging to the Union Tank line caused the rails to spread precipitating three cars to the ground. The tanks were partially turned over and some of the oil spilled. The Gallion wrecking crew was called and placed the cars on the rails. The damage will not exceed \$200.

Mack Suffers Some from Injury. Yesterday's Times-Democrat told of Captain John Mack of the south side fire department having sustained two falls during and after the Lake Erie round-house fire, and it was at first thought that he was not injured, at least he didn't "let on." This morning, however, the captain admitted that he was hurt, and it was necessary for him to go home and take care of himself. His neck and shoulders are somewhat bruised.

Mr. showed that no less than thirty days time would not be required to properly make the Golden Gate which could be accomplished in a few hours by a torpedo planter.

Such is the Fear of His Relatives Over the Pugilist. ACTED VERY STRANGE. Sent to the Hospital Where an Inquest Will be Held.

By Associated Press. New York, Dec. 4.—Terrence McGovern, the prize fighter, who is matched to fight "Young" Corbett, in Baltimore, late in January, was taken to the observation ward of the Kings County Hospital in Brooklyn today for examination as to his sanity.

Accompanied by his wife and stepfather, Joseph Kenny, McGovern arrived from Washington and went to his home in Brooklyn. According to the police he acted in so peculiar a manner at home that Mrs. McGovern was frightened. He then left the house and probed with a stick into the ash barrels along the curb. When the wagons came to remove the ashes, McGovern is said to have pursued the drivers with his stick, but said he was doing it playfully. A policeman stopped him and brought him to the police station where McGovern was examined by Dr. Howell, of the Seny Hospital, who said the fighter appeared to be insane. McGovern went to the hospital without protest.

# PRESIDENT ROOSEVELT'S MESSAGE TO THE 59th CONGRESS.

## THE PRESIDENT'S MESSAGE

Roosevelt in his annual message to Congress in 1906, in urging the enactment of laws to regulate the activities of corporations, said that the passage of the measure would be a landmark in the history of the government in its effort to secure justice for all.

He also urged the passage of laws to regulate the activities of corporations, and to secure justice for all. He also urged the passage of laws to regulate the activities of corporations, and to secure justice for all.

they are the worst enemies of the cause they profess to advocate. Just as the purveyors of sensational slanders in newspaper or magazine are the worst enemies of all men who are engaged in an honest effort to better what is bad in our social and governmental conditions.

Corruption is never so ripe as in communities where the demagogue and the agitator bear full sway. Because in such communities all moral bands become loosened, and hysteria and sensationalism replace the spirit of sound judgment and fair dealing as between man and man. In sheer revolt against the squalid anarchy thus produced men are sure in the end to turn toward any leader who can restore order, and then their relief at being free from the intolerable burdens of class hatred, violence and demagoguery is such that they cannot for some time be aroused to indignation against misdeeds by men of wealth, so that they permit a new growth of the very abuses which were in part responsible for the original outbreak. The one hope for success for our people lies in a resolute and fearless but sane and cool headed advance along the path marked out last year by this very congress. There must be a stern refusal to be misled into following either that base creature who appeals and panders to the lowest instincts and passions in order to arouse one set of Americans against their fellows or that other creature, equally base, but no baser, who in a spirit of greed or to accumulate or add to an already huge fortune seeks to exploit his fellow Americans with callous disregard to their welfare of soul and body. The man who debauches others in order to obtain a high office stands on an evil equality of corruption with the man who debauches others for financial profit, and when hatred is sown the crop which springs up can only be evil.

The plain people who think—the mechanics, farmers, merchants, workers with head or hand, the men to whom American traditions are dear, who love their country and try to act decently by their neighbors—owe it to themselves to remember that the most damaging blow that can be given popular government is to elect an unworthy and sinister agitator on a platform of violence and hypocrisy.

**Railroad Employees' Hours.** I call your attention to the need of passing the bill limiting the number of hours of employment of railroad employees. The measure is a very moderate one, and I can conceive of no serious objection to it. Indeed, so far as it is in our power, it should be our aim steadily to reduce the number of hours of labor, with as a goal the general introduction of an eight hour day. There are industries in which it is not possible that the hours of labor should be reduced, just as there are communities not far enough advanced for such a movement to be for their good, or, if in the tropics, so situated that there is no analogy between their needs and ours in this matter. On the isthmus of Panama, for instance, the conditions are in every way so different from what they are here that an eight hour day would be absurd, just as it is absurd, so far as the isthmus is concerned, where white labor cannot be employed, to bother as to whether the necessary work is done by alien black men or by alien yellow men. But the wage-workers of the United States are of so high a grade that alike from the merely industrial standpoint and from the civic standpoint it should be our object to do what we can in the direction of securing the general observance of an eight hour day.

Let me again urge that the congress provide for a thorough investigation of the conditions of child labor and of the labor of women in the United States. The horrors incident to the employment of young children in factories or at work anywhere are a blot on our civilization.

In spite of all precautions exercised by employers there are unavoidable accidents and even deaths involved in nearly every line of business connected with the mechanic arts. It is a great social injustice to compel the employee, or, rather, the family of the killed or disabled victim, to bear the entire burden of such an inevitable sacrifice. In other words, society shirks its duty by laying the whole cost on the victim, whereas the injury comes from what may be called the legitimate risks of the trade. Compensation for accidents or deaths due in any line of industry to the actual conditions under which that industry is carried on should be paid by that portion of the community for the benefit of which the industry is carried on—that is, by those who profit by the industry. If the entire trade risk is placed upon the employer, he will promptly and properly add it to the legitimate cost of production and assess it proportionately upon the consumers of his commodity. It is therefore clear to my mind that the law should place this entire "risk of a trade" upon the employer.

**Capital and Labor Disputes.** Records show that during the twenty years from Jan. 1, 1881, to Dec. 31, 1900, there were strikes affecting 117,569 establishments, and 6,105,694 employees were thrown out of employment. During the same period there were 1,005 lockouts, involving nearly 10,000 establishments, throwing over 1,000,000 people out of employment. These strikes and lockouts involved an estimated loss to employees of \$307,000,000 and to employers of \$143,000,000, a total of \$450,000,000. The public suffered directly and indirectly probably as great additional loss.

Many of these strikes and lockouts would not have occurred had the parties to the dispute been required to appear before an unprejudiced body representing the nation and, face to face, state the reasons for their con-

tention. The exercise of a judicial spirit by a disinterested body representing the federal government, such as would be provided by a commission on conciliation and arbitration, would tend to create an atmosphere of friendliness and conciliation between contending parties.

**Control of Corporations.** It cannot too often be repeated that experience has conclusively shown the impossibility of securing by the actions of nearly half a hundred different state legislatures anything but ineffective chaos in the way of dealing with the great corporations which do not operate exclusively within the limits of any one state. In some method, whether by a national license law or in other fashion, we must exercise, and that at an early date, a far more complete control than at present over these great corporations—a control that will, among other things, prevent the evils of excessive overcapitalization and that will compel the disclosure by each big corporation of its stockholders and of its properties and business, whether owned directly or through subsidiary or affiliated corporations. This will tend to put a stop to the securing of enormous profits by favored individuals at the expense of the general public, the stockholders or the wage-workers. Our effort should be not so much to prevent consolidation as such, but to supervise and control it as to see that it results in no harm to the people.

Combination of capital, like combination of labor, is a necessary element of our present industrial system. It is not possible completely to prevent it, and if it were possible such complete prevention would do damage to the body politic. What we need is not vainly to try to prevent all combination, but to secure such rigorous and adequate control and supervision of the combinations as to prevent their injuring the public or existing in such form as inevitably to threaten injury for the mere fact that a combination has secured practically complete control of a necessary of life would under any circumstances show that such combination was to be presumed to be adverse to the public interest. It is unfortunate that our present laws should forbid all combinations instead of sharply discriminating between those combinations which do good and those combinations which do evil. Regulations, for instance, as to the pressure of big shippers (as was shown in the investigation of the Standard Oil company and as has been shown since by the investigation of the tobacco and sugar trusts) as to the initiative of big railroads. Often railroads would like to combine for the purpose of preventing a big shipper from maintaining improper advantages at the expense of small shippers and of the general public. Such a combination, instead of being forbidden by law, should be favored. In other words, it should be permitted to railroads to make agreements, provided these agreements were sanctioned by the interstate commerce commission and were published. With these two conditions complied with it is impossible to see what harm such a combination could do to the public at large.

**Inheritance and Income Tax.** The national government has long derived its chief revenue from a tariff on imports and from an internal or excise tax. In addition to these, there is every reason why, when next our system of taxation is revised, the national government should impose a graduated inheritance tax and, if possible, a graduated income tax.

I am well aware that such a subject as this needs long and careful study in order that the people may become familiar with what is proposed to be done, may clearly see the necessity of proceeding with wisdom and self-restraint and may make up their minds just how far they are willing to go in the matter, while only trained legislators can work out the project in necessary detail. But I feel that in the near future our national legislators should enact a law providing for a graduated inheritance tax by which a steadily increasing rate of duty should be put upon all moneys or other valuables coming by gift, bequest or devise to any individual or corporation. There can be no question of the ethical propriety of the government thus determining the conditions upon which any gift or inheritance should be received.

As the law now stands it is undoubtedly difficult to devise a national income tax which shall be constitutional. But whether it is absolutely impossible is another question, and it possible it is most certainly desirable. The first purely income tax law was passed by the congress in 1861, but the most important law dealing with the subject was that of 1894. This the court held to be unconstitutional.

The question is undoubtedly very intricate, delicate and troublesome. The decision of the court was only reached by one majority. It is the law of the land and of course is accepted as such and loyally obeyed by all good citizens. Nevertheless, the hesitation evidently felt by the court as a whole in coming to a conclusion, when considered together with previous decisions on the subject, may perhaps indicate the possibility of devising a constitutional income tax law which shall substantially accomplish the results aimed at. The difficulty of amending the constitution is so great that only real necessity can justify a resort thereto. Every effort should be made in dealing with this subject, as with the subject of the proper control by the national government over the use of corporate wealth in interstate business, to devise legislation which without such action shall attain the desired end, but if this fails there will ultimately be no alternative to a constitutional amendment.

**Industrial Training.** Our industrial development depends largely upon technical education, in-

cluding in this term all industrial education, from that which fits a man to be a good mechanic, a good carpenter or blacksmith to that which fits a man to do the greatest engineering feat. The skilled mechanic, the skilled workman, can best become such by technical industrial education. The far-reaching usefulness of institutes of technology and schools of mines or of engineering is now universally acknowledged, and no less far reaching is the effect of a good building or mechanical trades school, a textile or watchmaking or engraving school.

In every possible way we should help the wageworker who toils with his hands and who must (we hope in a constantly increasing measure) also toil with his brain. Under the constitution the national legislature can do but little of direct importance for his welfare save where he is engaged in work which permits it to act under the interstate commerce clause of the constitution, and this is one reason why I so earnestly hope that both the legislative and judicial branches of the government will construe this clause of the constitution in the broadest possible manner.

**The Farmer.** The only other persons whose welfare is as vital to the welfare of the whole country as is the welfare of the wageworkers are the tillers of the soil, the farmers.

Several factors must co-operate in the improvement of the farmer's condition. He must have the chance to be educated in the widest possible sense, in the sense which keeps ever in view the intimate relationship between the theory of education and the facts of life.

Organization has become necessary in the business world, and it has accomplished much for good in the world of labor. It is no less necessary for farmers. Such a movement as the grange movement is good in itself and is capable of a well nigh infinite further extension for good so long as it is kept to its own legitimate business. The benefits to be derived by the association of farmers for mutual advantage are partly economic and partly sociological.

**Irrigation and Forest Preservation.** Much is now being done for the states of the Rocky mountains and great plains through the development of the national policy of irrigation and forest preservation. No government policy for the betterment of our internal conditions has been more fruitful of good than this.

**Divorce Legislation.** I am well aware of how difficult it is to pass a constitutional amendment. Nevertheless, in my judgment, the whole question of marriage and divorce should be relegated to the authority of the national congress. The change would be good from every standpoint. In particular it would be good because it would confer on the congress the power at once to deal radically and efficiently with polygamy, and this should be done whether or not marriage and divorce are dealt with. It is neither safe nor proper to leave the question of polygamy to be dealt with by the several states.

**Merchant Marine.** Let me once again call the attention of the congress to two subjects concerning which I have frequently been communicated with them. One is the question of developing American shipping. I trust that a law embodying in substance the views or a major part of the views expressed in the report on this subject laid before the house at its last session will be passed. It seems to me that the proposed measure is as nearly unobjectionable as any can be.

**The Currency.** I especially call your attention to the second subject, the condition of our currency laws. The national bank act has ably served a great purpose in aiding the enormous business development of the country, and within ten years there has been an increase in circulation per capita from \$2.41 to \$23.08. For several years evidence has been accumulating that additional legislation is needed. The recurrence of each crop season emphasizes the defects of the present laws. There must soon be a revision of them, because to leave them as they are means to incur liability of business disaster. Since your body adjourned there has been a fluctuation in the interest on call money from 2 per cent to 30 per cent, and the fluctuation was even greater during the preceding six months. The secretary of the treasury had to step in and by wise action put a stop to the most violent period of oscillation.

I do not press any special plan. Various plans have recently been proposed by expert committees of bankers. Among the plans which are practically feasible and which certainly should receive your consideration is that repeatedly brought to your attention by the present secretary of the treasury, the essential features of which have been approved by many prominent bankers and business men. According to this plan, national banks should be permitted to issue a specified proportion of their capital in notes of a given kind, the issue to be taxed at so high a rate as to drive the notes back when not wanted in legitimate trade. This plan would not permit the issue of currency to give banks additional profits, but to meet the emergency presented by times of stringency.

I do not say that this is the right system. I only advanced it to emphasize my belief that there is need for the adoption of some system which shall be automatic and open to all sound banks so as to avoid all possibility of discrimination and favoritism. The law should be amended so as specifically to provide that the funds derived from customs duties may be treated by the secretary of the treasury as he treats funds obtained under the internal revenue laws. There should be a considerable increase in bills of small denominations. Permission should be given banks, if necessary under settled restrictions, to retire their circulation to a larger amount than three millions a month.

**Our Outlying Possessions.** I most earnestly hope that the bill to provide a lower tariff for or else absolute free trade in Philippine products will become a law. No harm will come to any American industry, and while there will be some small but real material benefit to the Philippines, the main benefit will come by the showing made as to our purpose to do all in our power for their welfare.

**Porto Rican Affairs.** American citizenship should be conferred on the citizens of Porto Rico. The harbor of San Juan, in Porto Rico, should be dredged and improved. The expenses of the federal court of Porto Rico should be met from the federal treasury.

**Hawaii.** The needs of Hawaii are peculiar. Every aid should be given the islands, and our efforts should be unceasing to develop them along the lines of a community of small freeholders, not of great planters with coolly tilled estates.

**Alaska.** Alaska's needs have been partially met, but there must be a complete reorganization of the governmental system, as I have before indicated to you. I ask your especial attention to this. Our fellow citizens who dwell on the shores of Puget sound with characteristic energy are arranging to hold in Seattle the Alaska-Yukon-Pacific exposition. This exposition in its purposes and scope should appeal not only to the people of the Pacific slope, but to the people of the United States at large.

**Rights of Aliens.** Not only must we treat all nations fairly, but we must treat with justice and good will all immigrants who come here under the law. Whether they are Catholic or Protestant, Jew or gentile, whether they come from England or Germany, Russia, Japan or Italy, matters nothing. All we have a right to question is the man's conduct. If he is honest and upright in his dealings with his neighbor and with the state, then he is entitled to respect and good treatment. Especially do we need to remember our duty to the stranger within our gates. It is the sure mark of a low civilization, a low morality, to abuse or discriminate against or in any way humiliate such stranger who has come here lawfully and who is conducting himself properly. To remember this is incumbent on every American citizen, and it is of course peculiarly incumbent on every government official, whether of the nation or of the several states.

I am prompted to say this by the attitude of hostility here and there assumed toward the Japanese in this country. This hostility is sporadic and is limited to a very few places. Nevertheless it is most discreditable to us as a people, and it may be fraught with the gravest consequences to the nation.

I ask fair treatment for the Japanese as I would ask fair treatment for Germans or Englishmen, Frenchmen, Russians or Italians. I ask it as due to humanity and civilization. I ask it as due to ourselves, because we must act uprightly toward all men. I recommend to the congress that an act be passed specifically providing for the naturalization of Japanese who come here intending to become American citizens. One of the great embarrassments attending the performance of our international obligations is the fact that the statutes of the United States are entirely inadequate. They fail to give to the national government sufficiently ample power, through United States courts and by the use of the army and navy, to protect aliens in the rights secured to them under solemn treaties which are the law of the land. I therefore earnestly recommend that the criminal and civil statutes of the United States be so amended and added to as to enable the president, acting for the United States government, which is responsible in our international relations, to enforce the rights of aliens under treaties.

**The Cuban Matter.** Last August an insurrection broke out in Cuba which it speedily grew evident that the existing Cuban government was powerless to quell. Thanks to the preparedness of our navy, I was able immediately to send enough ships to Cuba to prevent the situation from becoming hopeless, and I furthermore dispatched to Cuba the secretary of war and the assistant secretary of state in order that they might grapple with the situation on the ground.

In accordance with the so-called Platt amendment, which was embodied in the constitution of Cuba, I thereupon proclaimed a provisional government for the island, the secretary of war acting as provisional governor until he could be replaced by Mr. Magoo, the late minister to Panama and governor of the canal zone on the isthmus. Troops were sent to support them and to relieve the navy, the expedition being handled with most satisfactory speed and efficiency. Peace has come in the island, and the harvesting of the sugar cane crop, the great crop of the island, is about to proceed. When the election has been held and the new government inaugurated in peaceful and orderly fashion the provisional government will come to an end.

The United States will see nothing of Cuba except that it shall prosper morally and materially and that nothing of the Cubans save that they shall be able to preserve order among themselves and therefore to preserve their independence. If the elections become a farce and if the insurrectionary habit becomes confirmed on the island it is absolutely out of the question that the island should continue independent, and the United States, which has assumed the sponsorship before the civilized world for Cuba's career as a nation, would again have to intervene and to see that the government was managed in such orderly fashion as to secure the safety, of life and property.

**The Rio Conference.** The second international conference of American republics, held in Mexico in the years 1901-02, provided for the holding of the third conference within five years and committed the fixing of the time and place and the arrangements for the conference to the governing board of the bureau of American republics, composed of the representatives of all the American nations in Washington. That board discharged the duty imposed upon it with marked fidelity and painstaking care, and upon the courteous invitation of the United States of Brazil the conference was held at Rio de Janeiro, continuing from the 23d of July to the 25th of August last. Many subjects of common interest to all the American nations were discussed by the conference, and the conclusions reached, embodied in a series of resolutions and proposed conventions, will be laid before you upon the coming of the final report of the American delegates.

**Panama Trip.** I have just returned from a trip to Panama and shall report to you at length later on the whole subject of the Panama canal.

**The Algiers Convention.** The Algiers convention, which was signed by the United States as well as by most of the powers of Europe, supersedes the previous convention of 1880, which was also signed both by the United States and a majority of the European powers. This treaty confers upon us equal commercial rights with all European countries and does not entail a single obligation of any kind upon us, and I earnestly hope it may be speedily ratified.

**Sealing.** The destruction of the Pribilof island fur seals by pelagic sealing still continues. The herd, which, according to the survey made in 1874 by direction of the congress, numbered 4,700,000, and which, according to the survey of both American and Canadian commissioners in 1891, amounted to 1,000,000, has now been reduced to about 180,000. This result has been brought about by Canadian and some other sealing vessels killing the female seals while in the water during their annual pilgrimage to and from the south or in search of food.

The process of destruction has been accelerated during recent years by the appearance of a number of Japanese vessels engaged in pelagic sealing. Suitable representations regarding the incident have been made to the government of Japan, and we are assured that all practical measures will be taken by that country to prevent any recurrence of the outrage.

We have not relaxed our efforts to secure an agreement with Great Britain for adequate protection of the seal herd, and negotiations with Japan for the same purpose are in progress.

The laws for the protection of the seals within the jurisdiction of the United States need revision and amendment.

**Second Hague Conference.** In my last message I advised you that the emperor of Russia had taken the initiative in bringing about a second peace conference at The Hague. Under the guidance of Russia the arrangement of the preliminaries for such a conference has been progressing during the past year. Progress has necessarily been slow, owing to the great number of countries to be consulted upon every question that has arisen. It is a matter of satisfaction that all of the American republics have now, for the first time, been invited to join in the proposed conference.

**Army and Navy.** It must ever be kept in mind that war is not merely justifiable, but imperative upon honorable men, upon an honorable nation, where peace can only be obtained by the sacrifice of consistency conviction or of national welfare.

The United States navy is the surest guarantor of peace which this country possesses. I do not ask that we continue to increase our navy. I ask merely that it be maintained at its present strength, and this can be done only if we replace the obsolete and outworn ships by new and good ones, the equals of any afloat in any navy. To stop building ships for one year means that for that year the navy goes back instead of forward.

In both the army and the navy there is urgent need that everything possible should be done to maintain the highest standard for the personnel alike as regards the officers and the enlisted men. I do not believe that in any service there is a finer body of enlisted men and of junior officers than we have in both the army and the navy, including the marine corps.

West Point and Annapolis already turn out excellent officers. We do not need to have these schools made more scholastic. On the contrary, we should never lose sight of the fact that the aim of each school is to turn out a man who shall be above everything else a fighting man.

There should soon be an increase in the number of men for our coast defenses. These men should be of the right type and properly trained, and there should therefore be an increase of pay for certain skilled grades, especially in the coast artillery. Money should be appropriated to permit troops to be massed in body and exercised in maneuvers, particularly in marching.

**PRESS AGENT FOR CHICAGO.**

(Chicago Cor. New York World.)

The City Council and Mayor Dunne believe Chicago should have a \$10,000 press agent. An ordinance creating the office has been introduced by Alderman Powers. The official title of the press agent may be "Commissioner of Industry." To live up to the spirit of the ordinance he must be a good "mixer," a bon vivant, an orator, an extemporaneous speaker and an optimistic, jolly good fellow. The ordinance says he must be a "boomer."

The proposed ordinance also provides that the press agent must be ever ready to tell how great Chicago is, and have convincing statistics at his tongue's end.

### DOES DYSPEPSIA OR INDIGESTION BOTHER YOU?

Do you know what it is to enjoy a good square meal? Even if you feel like it, dare you satisfy your desire?

Dyspepsia is one of the most complex functions of the human body—yet it is the most simple. Digestion is simply the converting of food into a condition in which it can be added to the blood. When your system is overdone, or run down,

**Rexall Dyspepsia Tablets,**

which are really a digestive treatment, readily set things right. First, the gastric tablets increase the secretion of gastric juices, which saturate the food and stop fermentation, and then with the aid of the dyspepsia tablets, digestion goes on naturally, that's the whole secret.

We sell a fifteen days' treatment for 25c, and guarantee it to give satisfaction, or we hand you back your money.

Could anything be more fair?

## YOUTH IS BURIED ALIVE UNDER STONE SCREENINGS

Fourteen Year Old Son of Clem Ferguson Meets a Tragic Death at the Pugh Stone Quarry.

Fell Into Screenings Chute and Was Found Dead by a Driver Who Drew His Body Out With a Load of the Fine Stone.

Albert Ferguson, fourteen year old son of Mr. and Mrs. Clem Ferguson, of 830 East North street, met death in a deplorable and tragic manner at the Pugh stone quarry, on east North street, about 2 o'clock this afternoon. The youth's father is employed at the quarry, his duties being to feed stone which is elevated from the quarries into the stone crusher. The boy went to the crusher this afternoon and was about the mouth of the crusher for some time, assisting his father part of the time and wandering about the place at will. He was perfectly familiar with all of the machinery about the crusher and when he left his father's side, the latter had no fear of his safety and when he did not return to the mouth of the crusher, Mr. Ferguson supposed he had gone home. A few minutes later, however, the youth's lifeless body was pulled out of a trap in a huge bin or hopper into which the fine stone screenings from the crusher are automatically fed by the machinery.

Nothing was known of the whereabouts of the boy from the time he was last seen at his father's side and there was no thought of his sad fate until the driver of a wagon, who had

opened the trap in the bottom of the screenings bin to secure a wagon load of screenings, was horrified to see the legs of the boy protruding through the bottom of the trap. He hastened to pull the body out of the opening, hoping that the lad was still alive but he found that life was extinct, the victim having smothered to death while buried under the screenings in the bin.

It is supposed that the boy had climbed to the top of the screenings bin to shove down an accumulation of screenings at the top and while so engaged, slipped and fell into the chute and was instantly buried beneath the hundreds of pounds of fine bits of stone which was being fed into the chute by the crusher machinery.

As soon as it was ascertained that the unfortunate boy was dead, Williams and Davis' ambulance was summoned and the body was taken to the morgue of that firm on west Market street, and Coroner Steiner was summoned.

The victim was a handsome, manly appearing youth and his tragic death is a sad and sudden shock to his parents and sisters.

#### PRETTY WEDDING

At the Country Home of Mr. and Mrs. Silas Reed.

A Thanksgiving wedding occurred on that festive day at the country home of Mr. and Mrs. Silas Reed, in Shawnee township, when their eldest daughter, Miss Alta, was given in marriage to Mr. Melville Leedom, of Elwood, Ind. The bride, a charming young lady, was dressed in white ballaste with bands of baby Irish. The happy couple made their appearance to the strains of music, "Hearts and Flowers," played by Miss Anna Hoover, after which Rev. Burton pronounced the wedding service that made them man and wife in the presence of some thirty guests.

The rooms were beautifully decorated in pink and white chrysanthemums. The bride received many handsome presents consisting of cut glass, china and linen and many other useful articles.

Mr. and Mrs. Leedom left Monday for their home in Elwood, Ind., where the groom is employed.

The best wishes of a host of friends go with them.
